WEDDING INFORMATION GUIDE

See the world through both my eyes

In the fall of 2004, I borrowed my father's jigsaw and got to work creating a special gift for a friend Little did I know that it would be my first cut of many. From woodcrafting and painting, the scope grew to include photography and graphic design.

Over the last 15 years, I've cultivated a brand known for it's uniqueness, personalization, and skill. Being able to take the picture, the idea, the beauty that you have in your mind and making it a reality, is my true passion. After all, that is where Imagine. Design. Breathe. originated from.

Just breathe, and be merry, I'll handle the rest.

-Merry
